The power of magnification

THE POWER OF MAGNIFICATION

Find out how magnification can enhance your practice

We introduce you to our **advanced magnification technology**, your ally in the quest for a **sharper, clearer, and more accurate vision** for your clinical practice.

Each specialty in the dental field has specific requirements. For this reason, our loupe and microscope systems are **carefully designed to enhance accuracy and comfort** in your daily routine, enabling you to provide the **highest quality** treatment to your patients.

ERGO

GALILEO

KEPLER

THE WIDEST MAGNIFICATION RANGE

COMPATIBLE WITH HIGH PERFORMANCE LED LIGHTS

OPTIONAL HD CAMERA AND INTEGRATED LIGHT

CUSTOMIZED LOUPES

We custom-design our loupes with **personalized optical guidance**. We are **pioneers in the Ergo technology**. Our Ergo loupes are the first in the Spanish market to be **completely ergonomic**, as they allow the visualization of the working area without the need to tilt the neck, keeping your back completely straight.

INTEGRATED HD CAMERA AND HEADLIGHT

INNOVATION IN MOTION

The integration of a powerful light (80K lux) and a Full HD camera makes Flamingo a unique and highly effective solution, compatible with most loupes on the market.

PERSONALIZED SERVICE

From the product selection to its delivery, our service is characterized by its **closeness and personal attention. We are here to support you in every step!**

THE POWER OF MAGNIFICATION IN YOUR HANDS

Our magnification technology allows for **accurate diagnostics**, improves your postural habits and reduces visual tension. We perform an **ergonomic study on your center** to find the perfect loupes for you.

Dr. Pedro Hernández

HAND SURGERY
SPECIALIST

“I use the Vittrea Ergo 10X magnifying glasses because they **make a significant difference in the final result.** With them, **the chances of complications are drastically reduced,** as they allow me to properly visualize and protect the anatomical structures of the hand.”

PERFECTION IS IN THE DETAILS

Increase the accuracy of your surgical procedures,
visualizing crucial details.
